

Applications & Advantages

Common, and not so common, applications for **Perfect Turf™** synthetic turf:

- Maintenance-free grass for road medians, shoulders and parkway areas
- Safer play areas for playgrounds, under swing sets and at Day Care Centers
- School districts & colleges for fields, fire lanes and golf practice facilities
- Most cost-effective landscaping option for commercial & municipal properties
- Playing Fields for football, soccer, baseball and tennis
- Golf putting greens (outdoor & indoor) and driving range tee lines
- Pool surrounds and other difficult areas to maintain a healthy lawn
- Dog runs, dog parks, doggy day care, kennels, and Veterinarian offices
- Three-season rooms, basements and other indoor uses
- Patios, roof tops and balconies
- Maintenance-free lawns and pool surrounds for homeowners
- Airport runways; no bugs and no grass means no geese & birds
- Indoor and outdoor baseball batting cages, pitching areas and training facilities
- Basements and locker rooms; synthetic turf can be used as water-proof "carpeting"
- Bocce ball courts and converted tennis courts
- Photo Shoots, use anywhere you need to have a perfect lawn in your picture
- Trade Show Booths; show your outdoor and sporting good products at their best
- Doormats, durable and attractive all-weather doormats of any size
- Indoor arenas and Paintball fields; easy to clean and durable

The advantages of all top-quality synthetic turf are well-recognized and include:

- Synthetic turf is viewed as an environmentally-friendly "green" product
- Low maintenance and maintenance-free options
- No watering, saves time and money, conserves our fresh water supply
- No weeding, saves time and always looks good
- No fertilizer, no chemicals - just healthy "grass" that doesn't harm the environment
- No dead spots - eliminate problem areas, synthetic turf is not affected by chlorine and most other common pool and yard chemicals
- Nothing but green grass all the time - 24/7/365 for 10-20 years
- Greatly reduces bugs and eliminates geese, ducks, birds from your lawn
- Filled with rubber, synthetic turf can be a safer solution for playgrounds and fields
- Lower total cost of ownership over the 10-20 year life of the turf, ROI up to 300%
